

FOR OFFICIAL USE ONLY - NO CONTINUATION

Excerpts from ODP Staff Meeting - 18 February 1983

1. The D/ODP will be taking a close look at all TDY requests. He will also be reviewing trip reports.
2. Funds for the new building continue to be within guidance but are the object of continued Congressional scrutiny.
3. The snow emergency was handled very well with no loss of facilities because of the weather. Those responsible are to be complimented.
4. Attached are the excerpts from the ODP Division/Staff reports and the weekly report to the DDA.

ODP 83-265  
17 February 1983

MEMORANDUM FOR: Deputy Director for Administration

FROM:

STAT

Director of Data Processing

SUBJECT: ODP Report for Week Ending 18 February 1983

1. Wang Users Group Being Formed

An organizational meeting of a Wang Users Group was conducted on Thursday, 10 February, with approximately 30 representatives from various Agency components. The agenda and date of the first official meeting of the Users Group will be announced during the first week of March.

2. DIA SAFE Computer Installation

IBM continues the installation of DIA's 3083 systems. The systems are expected to be ready for hardware testing the weekend of 19-20 February.

3. SAFE System Design Review (SDR)

The SAFE System Design Review was held on 14, 15, and 16 February. The objectives of the System Design Review were to present a reasonable and coherent plan for the delivery of SAFE services during the 85 to 87 timeframe. It was the judgment of the program manager that the objectives of the design review were met and the review was closed. The result is that the plans are now baselined and we have available a reasonable set of schedules of costs from which to continue planning between early and integrated deliveries.

4. Significant Events During Coming Week

D/ODP and other senior officers will be travelling to the West Coast next week to attend technology and management briefings with several companies. First, they have been invited to attend a technology briefing at Xerox, which has implications for the Office as well as SAFE. In addition, they are going to

Applications

FOURCEE (Community-wide Computer Assisted Compartmentation Control System). Systems Support Division was informed by Engineering Division that there is a good possibility the 4C hardware would be available for limited applications testing sometime this week. (U) [redacted]

STAT

GRAPHICS (CIA Computer Graphics Support). The Graphics Group received 12 calls this week from various Agency offices requesting computer graphics consulting. Among the offices were NESA, ASG, OT&E, OTS, OSWR, OIA, NPIC, and the DDS&T graphics shop. In addition, we also aided the Defense Mapping Agency, Air Force Foreign Technology Division, and Hughes Aircraft, a contractor to NPIC. As a result of this interest, we have scheduled within the next few weeks three demonstrations of the computer graphics product we support. (U) [redacted]
